

SUMMER WORK 2022

Incoming 1st Graders

Dear Parents,

It is very important that you work with your child over the summer on their reading and math skills. Please also know that there are many, many, learning opportunities to be had every single day!

It should be a regular, ongoing effort of keeping skills fresh. The following is just a guide.... please bend, extend, and improvise as you see fit!

****Attached you will find a contract to be signed by both you and your child and turned in to Ms. Ingram the first week of school.****

READING:

We recommend 60 minutes of reading each week. Please feel free to do more.

All reading counts!

For example:

- * Silent reading
- * Someone reading to your child
- * Your child reading to someone else
- * ***If your child does not know the words written in the book, let them re-tell the story page by page in their own words!***
- * Listening to a book on CD or other electronic device
- * Reading menus, street signs, maps, etc.

Again, be flexible and creative, and remember ALL READING COUNTS

MATH:

At least 20 minutes of math each week is recommended. Again, please feel free to do more!

- * Primarily focus on the following:
- * Addition and subtraction facts to 20
- * Finding patterns (in numbers, objects, actions, art, or even in nature!)
- * Number writing
- * Another good option is to purchase a K-1st grade math workbook- try to keep it fun!

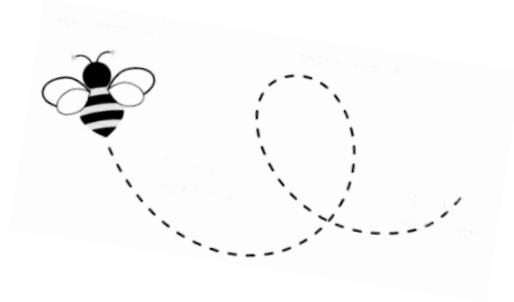

Below are some fun math websites for your child to use over the summer.

Summer Work Contract

Directions: At the end of the summer, please sign this form and return it to Miss Ingram. Make sure to read over this letter now, and practice your reading and math often. Love,  Ms. Boccella

Dear Miss Ingram,

I have tried my best to practice my reading and math skills (especially addition and subtraction) this summer. I have worked hard and am ready and excited for first grade!!

Sincerely,

(student)
