Rising 4th Grade 2022 Summer Work Packet

Have a great summer with lots of exploring, creating, imagining,
exercising, and dreaming!

Keep your brains growing by making sure to read and write,
practice math regularly, and get lots of sleep.

Be sure to bring these to school the first day of 4th grade.

Happy Summer!!

Summer Reading

Spend 15-20 minutes reading each day.

My goal this summer is to read _____ **graphic novels or chapter books.**

List the book titles you read:

My goal this summer is to read _____ **picture books.**

List the book titles you read:

I have read regularly this summer and I have become a better reader. I am ready to work hard in 4th grade.

Signed: _____; **Parent Signature:** _____

*Helpful tip: when you don't know a word look for context clues in the writing and in the pictures to help you, and check a dictionary.

Summer Writing

Choose 2 of the 3 Required Writing Assignments:

(due the first day of school)

#1 Friendly Letter Postcard - Do one cultural activity with your family (museum, concert, play, ethnic restaurant, etc...) and write an index card "postcard" to Miss Hyrcza telling her about your experience. Remember to include the date, a greeting, a 5 sentence body paragraph and a closing with your signature. On the other side draw and color a beautiful picture representing your experience.

#2 Show Don't Tell - Write a quality 5 sentence paragraph about a place you visit this summer. Do NOT tell what the place is but show it through wonderful descriptive writing.

#3 Research Your Favorite Author - Learn about your favorite author and write a quality 5 sentence paragraph about that author and why you enjoy the books they have written.

Summer Math

These are the math skills you should focus on this summer:

- Addition & Subtraction of 3-digit and 4-digit numbers
- Addition & Subtraction of decimals; money, making change
- Multiplication & Division math facts 0-12
- Fractions
- Measurement: length, weight, capacity and time

#1 Complete 3 of the following math challenges:

- Go to the store or restaurant with a parent and find the total cost
- Cook or bake with a parent from a recipe that has at least 5 ingredients to be measured
- Play Monopoly, Othello, Dominoes, Life or another relevant game with your family
- Create a symmetrical work of art on paper
- Calculate the amount of time you spend inside during a day and the amount of time you spend outside. Begin calculating from when you wake up until you are in bed for the night.
- Solve a puzzle that is 300-500 pieces.

Check which challenges you have completed.
